Anderson Robbins Research (D) / Shaw & Company Research (R)
N = 1,009 registered voters (600 landline, 409 cell phone)

Interviews Conducted:
January 25-27, 2015

*Questions 1-19 and 22 are for release after 6PM ET Wednesday, January 28, 2015.
Questions 20-21 and 23-31 are for release after 6PM ET Thursday, January 29, 2015.*

Methodology

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers January 25-27, 2015 among a random national sample of 1,009 registered voters (RV). Results based on the full sample have a margin of sampling error of plus or minus three percentage points.

Landline and cell phone telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means that phone numbers for each state are proportional to the number of voters in each state.

Results are of registered voters, unless otherwise noted.

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.
