

FOX NEWS POLL

Anderson Robbins Research (D) / Shaw & Company Research (R)

Interviews Conducted:
January 4-7, 2016

All results are for release after 6:00PM/ET Friday, January 8, 2016.

NEW HAMPSHIRE

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R).

The poll was conducted by telephone with live interviewers January 4-7, 2016 among a random state sample of 800 likely New Hampshire primary voters. Results based on the full sample have a margin of sampling error of plus or minus 3.5 percentage points. Results for the 386 likely Democratic primary voters have a margin of error of plus or minus 5 points and results for the 414 likely Republican primary voters have a margin of error of plus or minus 4.5 points.

Landline (375) and cellphone (425) numbers were randomly selected from a statewide voter file of registered New Hampshire voters using a probability proportionate to size method. This simply means that phone numbers are proportionally representative to the number of voters in all regions across the state of New Hampshire.

An asterisk (*) is used for percentages of less than one-half percent.

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding.

4. Are you certain to support that person, or do you think you may change your mind and support someone else? [If don't know: re-read question and probe for answer]
