

FOX NEWS POLL

Anderson Robbins Research (D) / Shaw & Company Research (R)
N = 1,306 registered voters (625 landline, 681 cell phone)

Interviews Conducted:
July 30-Aug 2, 2015

All results are for release after 6:00 P.M. ET Monday, August 3, 2015

Methodology

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers July 30-August 2, 2015 among a random national sample of 1,306 registered voters (RV). Results based on the full sample have a margin of sampling error of plus or minus three percentage points.

Landline and cell phone telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means that phone numbers for each state are proportional to the number of voters in each state.

Results are of registered voters, unless otherwise noted.

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.
