

# FOX NEWS POLL

*All results are for release after 6PM/ET Friday, November 4, 2016*

## **Methodology**

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers November 1-3, 2016 among a random national sample of 1,211 registered voters (RV).

Results based on the full sample have a margin of sampling error of plus or minus two and a half percentage points.

A subsample of 1,107 has been defined as likely voters (LV), with a margin of error of plus or minus three percentage points.

Landline (528) and cellphone (683) telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state. Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

***Results are of registered voters, unless otherwise noted.***

An asterisk (\*) is used for percentages of less than one-half percent.

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding.

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.

1. How interested are you in the 2016 presidential election? Are you:

	-----Interested-----			-----Not interested-----			(Don't know)
	TOTAL	Extremely	Very	TOTAL	Somewhat	Not at all	
<b>Likely Voters</b>							
1-3 Nov 16	85%	56	29	15	12	3	1

### Fox News Poll -- Margin of Error for Subgroups

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers November 1-3, 2016 among a random national sample of 1,211 registered voters. A subsample of 1,107 has been defined as likely voters. The margin of sampling error is plus or minus 2.5 percentage points for results among registered voters and plus or minus 3 points among likely voters.

Results among the attached subgroups have larger sampling errors:

	<b>Registered Voters +/- 2.5%</b>	<b>Likely Voters +/- 3%</b>
<b>Democrats:</b>	+/- 4.5%	+/- 4.5%

22. The FBI is reviewing additional emails related to its investigation of Hillary Clinton's use of a private server and handling of classified emails while she was secretary of state. How likely do you think it is the FBI will find something in these additional emails that leads to criminal charges against Clinton?
