FOX NEWS POLL

Questions 1-9, 12-29, 32-48 are for release after 6:00 PM/ET Wednesday, August 11, 2021.
Questions 10-11, 30-31, 49-50 are for release after 6:00 PM/ET Thursday, August 12, 2021.
All other questions are held for future release.

Methodology

Conducted August 7-10, 2021, this Fox News Poll includes interviews among 1,002 registered voters (RV) nationwide who were randomly selected from a national voter file and spoke with live interviewers. Landline (149) and cellphone (853) telephone numbers were selected for inclusion using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state.

Results based on the full sample have a margin of sampling error of ± 3 percentage points.

The Fox News Poll is conducted under the joint direction of Beacon Research (D) (formerly known as Anderson Robbins Research) and Shaw & Company Research (R).

Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.
Fox News Polls before 2011 were conducted by Opinion Dynamics Corporation.

Results are of registered voters, unless otherwise noted.
An asterisk (*) is used for percentages of less than one-half percent.
A dash (-) represents a value of zero.
Some percentages may not add to 100% due to rounding. In the same way, percentages in "total" columns may be one point more or less than the sum of their parts due to rounding.

1. Do you approve or disapprove of the job Joe Biden is doing as president? **[IF APPROVE / DISAPPROVE: Is that strongly (approve/disapprove), or only somewhat?]**

	-------------Approve-------------			----------Disapprove----------			(Don't know)
	TOTAL	Strongly	Somewhat	TOTAL	Somewhat	Strongly	
7-10 Aug 21	53%	28	25	46	10	36	2

Fox News Poll -- Margin of Error for Subgroups

The Fox News Poll is conducted under the joint direction of Beacon Research (D) and Shaw & Company Research (R). It was conducted by telephone (landline and cellphone) with live interviewers August 7-10, 2021 among 1,002 registered voters nationwide.

Results based on the full sample have a margin of sampling error of plus or minus 3 percentage points. Results among the attached subgroups have larger sampling errors:
