Ms. Krill:

We write to you with significant concerns that American progressive advocacy groups may be advancing U.S. government economic and environmental policies to the benefit of the Chinese Communist Party (CCP).

In a July 7, 2021 letter, Earthworks, along with more than 40 other progressive groups, called on the Biden-Harris Administration and the Congress to abandon an “antagonistic posture” towards China in favor of a more cooperative relationship to combat climate change.¹ In doing so, Earthworks appears to be requesting the U.S. government not only to ignore China’s crackdown on Hong Kong and its atrocious human rights abuses, including its continued genocide of Uyghur Muslims, but also to ignore the clear threat China poses to America’s economic and national security.

Specifically, you wrote that “anti-China rhetoric” does nothing to “support the wellbeing of everyday people” in *China* and you blame the United States for climate emissions, while ignoring China’s human rights abuses and dominant contribution to global greenhouse gas emissions.² You demand the United States “do much more than China” to address climate change “equitably.”³ Shockingly, this letter reads more like CCP propaganda designed to blame

and weaken the United States to benefit China's national and economic security agenda. It's noteworthy that the CCP's official newspaper, *People's Daily*, covered your letter on July 9, 2021, to argue for better cooperation, precisely what you demand.⁴

China's foreign influence campaign is well-known. The CCP's strategy is first to cut off criticism of China's government, then to co-opt American influences to promote China's narrative.⁵ China's goal is to "influenc[e] the influencers" in order to get "Americans to carry its message to other Americans."⁶ Your July 7, 2021 letter appears to reflect the CCP's strategy to cut off criticism of China's government and to promote the CCP's preferred policy interests.

We are concerned that foreign interests may be influencing your advocacy activities directed toward Congress. In light of our jurisdiction over foreign commerce and environmental policy, we seek to understand the relationship between your work and Chinese efforts to influence U.S. policy development. Accordingly, to assist us in our oversight of China's influence and our initial steps to examine this important matter, please respond to the following questions no later than October 15, 2021:

1. Does Earthworks or any agents of Earthworks currently or has Earthworks previously received funds or anything of value directly from the CCP or any individual or organization connected to the CCP?
 - a. If yes, please provide the specific amount or thing of value you received and the date on which you received it.
2. Does Earthworks currently or has Earthworks previously taken any action at the request of the CCP or any individual or organization connected to the CCP?
 - a. If yes, please detail what action was taken and the date on which such action was taken.
3. Regarding your July 7, 2021 letter, please answer the following:
 - a. Did Earthworks initiate the drafting of the letter? If not, please identify which group did.
 - i. If Earthworks did not know who initiated the drafting of the letter, please identify who did initiate the drafting of the letter and who asked Earthworks to sign the letter.

- b. Was Earthworks asked by the CCP or any individual or organization connected to the CCP to draft, sign, or promote the letter? If so, please identify who Earthworks communicated with in this regard.
 - c. Did the CCP or any individual or organization connected to the CCP ask Earthworks for assistance in promoting China's narrative on climate change?
 - d. Did the CCP or any individual or organization connected to the CCP ask Earthworks for assistance to help downplay criticism of the CCP?
 - e. Did the CCP or any individual or organization connected to the CCP ask Earthworks to lobby the U.S. government on their behalf as it relates to climate change?
4. Is Earthworks aware of the ongoing genocide of the nearly 2 million Uyghurs, Kazakhs, and other Muslim minorities in China?
- a. If yes, does Earthworks believe America should speak out against those human rights abuses?
 - b. If yes, does Earthworks believe America should take action to address them?
 - c. If yes, does Earthworks believe America should ignore those human rights abuses to cooperate with China to address climate change?
 - d. If no, has Earthworks been asked by the CCP or any individual or organization connected to the CCP to ignore such abuses?
5. Is Earthworks aware of the progressive group Human Rights Watch and its recent report that found the "darkest period for human rights in China since the 1989 massacre that ended the Tiananmen Square democracy movement"?⁷
- a. If yes, does Earthworks agree or disagree with Human Rights Watch?
 - b. If yes, does Earthworks have any concerns with China's ongoing human rights abuses?
 - c. Does Earthworks believe partnering with China to address climate change, or any other matter, would condone China's ongoing genocide of Uyghurs, Kazakhs, and other Muslim minorities in China? If so, does Earthworks support a boycott, divestment, and sanctions against China in response to its genocide?
