Background and Methodology

Patrick E. Gonzales graduated magna cum laude from the University of Baltimore with a degree in political science.

His career in the field of public opinion research began in the mid-1980s as an analyst with *Mason-Dixon Opinion Research*. During this time, Mr. Gonzales helped develop, craft and implement election surveys and exit polls for television and radio in the Baltimore-Washington D.C. metro area.

Mr. Gonzales has polled and analyzed well over a thousand elections in Maryland and across the country since that time. Further, he and his associates have conducted numerous market research projects, crafting message development plans and generating strategy blueprints for businesses and organizations throughout the state.

Over his decades of conducting public opinion polls, Patrick Gonzales has been widely recognized by his peers for his ability to conduct unbiased surveys, and analyze the results in an impartial, evenhanded manner.

Mr. Gonzales appears frequently on radio and television in the Baltimore-D.C. region as a guest commentator.

Elizabeth Gonzales Byers is *Gonzales Research's* Director of Marketing and Social Media. She can be contacted at elizabeth@gonzalesresearch.com

This poll was conducted by ***Gonzales Research & Media Services*** from December 20th through December 30th, 2021. A total of 807 registered voters in Maryland who vote regularly were queried by live telephone interviews, utilizing both landline and cell phone numbers. A cross-section of interviews was conducted throughout the state, reflecting general election voting patterns.

The margin of error (MOE), per accepted statistical standards, is a range of plus or minus 3.5 percentage points. If the entire population was surveyed, there is a 95% probability that the true numbers would fall within this range.

Synopsis

“It usually takes me more than three weeks to prepare a good impromptu speech.”

– Mark Twain

As he continues to sink in the national polls, President Joe Biden is keeping his head above water in Maryland...mostly.

Statewide, 54% approve of the overall job Biden is doing as president, while 43% disapprove of his performance in office. Biden’s majority approval is grounded in the two-to-one registration advantage Democrats enjoy over Republicans in the Old Line State: 84% of Democrats approve of the job the president is doing; 86% of Republicans disapprove.

Slogging into their third year coping with covid, a 57% majority of Marylanders say they approve of the job Biden is doing handling the coronavirus pandemic; only 37% “strongly” approve, however. Among African-Americans, 89% still support the president on the job he’s doing handling the pandemic.

With regard to voter perception toward his management of the economy, Biden does not fare as well. Statewide, 45% rate the job he’s doing handling the economy as excellent/good, while 54% rate his performance as fair/poor. Seventy-one percent of Democrats support Biden on the economy; 91% of Republicans differ.

The reactions of Democrats and Republicans are predictable (like sunrise and sunset each day), but independents – those aligned with neither party - can determine the fortunes of a politician...to some extent in deep blue Maryland, much more so in other parts of the country.

Among independents here, only 26% support the president on his handling of the economy, while 72% think he’s is not doing a very good job. Further, a hefty majority of unaffiliated voters currently disapprove of the job Biden is doing across the board – 62% of independents do not think his administration has been competent in running the government.

The bloc of independents showing up at the polls is growing in Maryland, now comprising nearly twenty percent of the electorate.

Among all voters, 49% approve of the job Kamala Harris is doing as vice-president, while 45% disapprove, with 6% having no opinion. Seventy-seven percent of Maryland Democrats approve of the job she's doing; 89% of Republicans disapprove. With independents, 27% approve of her performance as vice-president, and 63% disapprove.

It seems like only yesterday when Larry Hogan shocked the state with his upset win for governor. Seven years later, with 74% approval today, Hogan remains the most popular governor in Maryland over the past 60 years (at least).

A quick stroll down memory lane with Gonzales Research and its rating of Governor Hogan since he took office:

Hogan Job Performance	Approve
January 2016	67%
March 2016	70%
January 2018	71%
June 2018	75%
August 2018	71%
October 2018	72%
January 2019	77%
March 2019	78%
May 2019	76%
January 2020	75%
March 2020	78%
May 2020	78%
October 2020	73%
January 2022	74%

With a deft touch, Hogan has navigated the choppy, partisan puddle of politics and kept his ship sailing straight and fast, as others have sputtered and sunk during these turbulent times.

Gonzales Poll – January 2022 Results

President Joe Biden

Overall Approval

Among voters in Maryland, 54% approve of the job Joe Biden is doing as president (34% “strongly” approve and 20% “somewhat” approve), while 43% disapprove (40% “strongly” disapprove and 3% “somewhat” disapprove), with 3% offering no opinion.

Democrats (84%) support Biden overwhelmingly...with equal (Republicans-**86% disapproval**) and near equal (independents-**62% disapproval**) ferocity, the rest of the state opposes the president.

Men	47%	49%
African American	88%	9%
White	40%	57%

Black voters in the Free State back the president mightily.

The Economy

Regarding Biden’s management of the economy, Marylanders are in a bit of a malaise. Statewide, 45% rate the job he is doing handling the economy as either “excellent” (15%) or “pretty good” (30%), while 54% rate his job performance on the economy as either “only fair” (13%) or “poor” (41%).

Coronavirus Pandemic

Entering the third year of covid, 57% of voters approve of the job Joe Biden is doing handling the coronavirus pandemic (37% “strongly” approve and 20% “somewhat” approve), while 41% disapprove (36% “strongly” disapprove and 5% “somewhat” disapprove), with 2% providing no answer.

Again, Democrats (85% **approve**) and Republicans (84% **disapprove**) could not be further apart ...among independents, 40% approve of the job Biden’s doing with the coronavirus, and 55% disapprove.

Running the Government

Overall, 55% of Maryland voters think the Biden administration has been competent in running the government, while 43% say the administration has not been competent.

And - once again - Democrats and Republicans could not be finer examples of yin and yang.

Biden Administration	<u>Competent</u>	<u>Not Competent</u>

Direction of the State

Fifty-seven percent say things in Maryland are generally headed in the right direction, while 34% feel things in the state are on the wrong track, with 9% not offering a response.

In a state run by a GOP governor, Republicans, interestingly, are more likely to feel things are on the wrong track, while Democrats are much more likely to say things are heading in the right direction

Governor Larry Hogan

Overall Approval

Moving into his eighth and final year as governor, Republican Larry Hogan enjoys lofty 74% approval among Maryland voters (36% “strongly” approve and 38% “somewhat” approve). Twenty-two percent disapprove of the job Hogan is doing (9% “strongly” disapprove and 13% “somewhat” disapprove), and 4% offer no opinion.

Nearly 8-in-10 Democrats approve of the job Hogan’s doing in elected office, roiling the insatiable impulses of D.C. docents and kingmakers trying to carve out the future.
