

Dear President Trump-

We, your original Ohio 2016 RNC designated delegates and members of the 2016 Ohio Electoral College, are sending the below correspondence to express our extreme displeasure and feeling of betrayal on your endorsement of JD Vance for Ohio Senate.

While we are aware of the blowback you are receiving from your supporters for your endorsement of Vance- please understand we are not your typical Republicans in Ohio. We are the original and proud "Trumpers" who served as your delegates in Ohio when everybody was against you or supporting other candidates.

We are the ones you trusted to stand and deliver for you in 2016! And we did it for you against the Ohio Swamp and many in the establishment! We did it in the face of "Never Trumpers" like JD Vance, who has former Team Kasich members serving on his campaign.

President Trump this movement, is about America First. While JD Vance may have apologized and now says nice things about you (as candidate Vance) - the fact is JD Vance never once apologized for working against our movement and most importantly calling us - your original supporters - racist. Further, JD Vance has done nothing since 2016 to earn Ohioans' votes.

Unlike the other candidates in this race, JD Vance has not developed relationships with Republican voters and grassroots leaders that are crucial to win. This endorsement of JD Vance is a betrayal to not only your Ohio supporters but Trump supporters across our great nation!

President Trump winning is important, but so is draining the swamp and winning with honor and integrity. We have several fine candidates that can beat Tim Ryan. You trusted us in 2016 to do what was best for Ohio.

We would respectfully request you reconsider your endorsement of JD Vance to show your supporters in Ohio and across our great states why we first believed in you back in 2016. That it really was about the We the People, America First and Making America Great Again not supporting a political chameleon and snake oil salesman like JD Vance!

Thank you,

Rob Scott
