

## It's Time For A New Vision For Victory At The RNC

Monday, January 9th, 2023

Members of the Republican National Committee,

We cannot continue on our current trajectory as a Republican Party. We must change, in order to fulfill our promise to Republican voters to win elections. After three consecutive losing election cycles and decades of a handful of consultants plundering Party resources, many members of the RNC seem content to double down on the incumbent leadership that is presently failing us. The once great Party of Lincoln is on the verge of permanent irrelevance if we fail to come together to correct course.

The Republican Party currently faces the most organized, radical, and weaponized Democrat Party the nation has ever seen. Despite this clear and present threat to our freedom, the highest levels of the Republican National Committee appear to be more focused on blaming others for their lack of leadership and lining the pockets of cherry-picked consultants than on winning elections.

The perception amongst a growing number of Republican Party donors and activists is that the RNC needs fresh leadership in order to make the necessary changes to win elections. Millions of Party activists who have given their time, talents, and treasure to the cause of freedom on behalf of the Republican Party feel abandoned by the RNC. We are calling on members of the RNC to thank Ronna McDaniel for her service and to support the only RNC member seeking to succeed her, Harmeet Dhillon—a bold visionary with the energy and experience to retool the party for success in 2024 and beyond.

As a nationally-recognized constitutional attorney and activist within the conservative movement for several decades, Harmeet has fought on behalf of Republican Party committees, candidates, and GOP interests, both with the party's support and beyond it. She has served as a county party committee chairman, run for public office, fought for conservative causes at the Supreme Court, and currently leads the Republican National Lawyers Association at a time when election integrity experience is at a premium as a year-round, not seasonal, mandate. Harmeet is also a successful business owner, and as a nonprofit founder and CEO, understands the ethical duties inherent in raising and spending donor funds.

Harmeet Dhillon is the right choice to lead our Party into the future as the next RNC Chair.

Sincerely,

Joy Ashlock (Chuluota, FL)
