

**9. From January 1, 2023, to present, all documents sufficient to show the following data related to the implementation of the CHNV parole program:**

**a. The monthly number of family unit applications from each country for which travel authorization was granted;**

The parole processes established for nationals of Cuba, Haiti, Nicaragua, and Venezuela (CHNV) provide a safe, orderly, and lawful pathway for such nationals and their immediate family members to come to the United States. Any individual (“beneficiary”) participating in these processes must have a supporter in the United States (“supporter”) who agrees to provide them with financial support for the duration of their parole in the United States, pass rigorous screening and vetting, as well as meet other established eligibility criteria.

Once a supporter has been confirmed by U.S. Citizenship and Immigration Services (USCIS), the principal potential beneficiary can add travel group members – to include their immediate family members – to their USCIS account. The principal potential beneficiary will review and confirm biographic information and complete attestations for travel group members, including their spouse and children.

Table A: Advance Travel Authorization (ATA) Approvals for Family Unit (FM) Individuals in the Cuban, Haitian, Nicaraguan, and Venezuelan Parole Processes by Month

Month	Cuba	Haiti	Nicaragua	Venezuela	Total
January	1,781	425	437	4,816	7,459
February	1,969	1,618	1,714	2,328	7,629
March	2,755	1,840	1,701	2,374	8,670
April	2,224	2,676	1,973	2,288	9,161
May	3,387	2,530	1,576	2,641	10,134
June	1,728	2,593	1,621	1,902	7,844
July	1,478	3,122	1,646	2,545	8,791
August	2,170	2,817	1,584	1,937	8,508
Total	17,492	17,621	12,252	20,831	68,196

Notes: Data as of August 25, 2023. Individuals include all people (adults and minors) in a family unit (FM) group. The data reflect FM groups that are 1) associated with a group leader’s receipt number and 2) have at least one individual less than 18 years old. Months are assigned based on the month that the group leader received advance travel authorization (ATA) approval.

Table Source: DHS OIS Analysis of U.S. Customs and Border Protection, Office of Field Operations data.

**b. The monthly number of family unit applications from each country for which travel authorization was granted that included a “common law” spouse;**

The Department does not collect systematic data on common law spouses.

**c. The monthly number of applicants processed for parole at any U.S. airport port of entry, organized by U.S. airport;**

DHS may grant ATA up to 30,000 noncitizens each month to seek parole on a case-by-case basis under the processes for Cubans, Haitians, Nicaraguans, and Venezuelans. The number of travel authorizations granted under this process are distributed across the four countries, not to exceed 30,000 each month in the aggregate. Approval of advance authorization to travel does not guarantee parole into the United States. Whether to parole the individual is a discretionary determination made by CBP at the POE at the time the individual arrives at the POE.

Table C: Monthly Potential Beneficiary Arrivals under the Parole Processes for Cubans, Haitians, Nicaraguans, and Venezuelans by United States Airport of Entry: January 2023 - August 2023

United States Airport	January	February	March	April	May	June	July	August

Note: Data as of September 6, 2023, reporting total arrivals of noncitizens with ATA issued under the processes for Cuban, Haitians, Nicaraguans, and Venezuelans. Data is preliminary and

subject to change. The processes for Cubans, Haitians, and Nicaraguans were announced January 5, 2023; the process for Venezuelans was announced October 12, 2022.

Source: DHS OIS analysis of September 5, 2023, CBP ATA Beneficiaries Vetting Summary Report.

**d. The monthly number of applicants from each country for which travel authorization was issued, who were denied entry at a point of entry and the reason for each denial;**

When a potential beneficiary arrives at the POE, CBP inspects them and considers them for a grant of discretionary parole on a case-by-case basis. During this inspection, CBP reviews available documentation and information to confirm the potential beneficiary's eligibility for parole into the United States under these parole processes.

As part of the inspection, potential beneficiaries undergo additional screening and vetting, to include additional biometric vetting and interview consistent with the CBP inspection process. Individuals who are determined to pose a national security or public safety threat, or otherwise do not warrant parole as a matter of discretion upon inspection, will be processed under an appropriate processing pathway and may be referred to Immigration and Customs Enforcement.

See Attachment 1: Determinations of Ineligibility for CHNV Parole at ports of entry.

NOTE: This attachment is law enforcement sensitive.

**e. The monthly number of applicants from each country for which travel authorization was issued who were found to be inadmissible at a port of entry but released into the United States;**

Determinations regarding whether an individual merits parole as a matter of discretion under the CHNV processes are a shared responsibility between USCIS and CBP, consistent with Section 212(d)(5)(A) of the Immigration and Nationality Act (INA), as amended. All individuals paroled into the United States are, by definition, inadmissible, including those paroled under the CHNV Processes.

**f. The current backlog of applicants from each country who are waiting for travel authorization.**

As of mid-October, USCIS has approximately 1.6 million I-134As pending review for consideration under the CHNV parole processes. There is currently a monthly limit of 30,000 ATAs that may be issued under CHNV processes.
