

TOPLINE & METHODOLOGY

Scripps News/Ipsos Poll

Conducted by Ipsos using KnowledgePanel®
A survey of the American general population (ages 18+)
Interview dates: September 13-15, 2024
Number of interviews, National gen pop: 1,027
Number of interviews, Arizona gen pop: 401

Margin of error: +/- 3.6 percentage points at the 95% confidence level for National gen pop
Margin of error: +/- 7.1 percentage points at the 95% confidence level for Arizona gen pop

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

*NOTE: * = less than 0.5%, - = no respondents, N/A = not applicable*

Annotated Questionnaire:

- Are you currently registered to vote at your current address, or not?

Total Mean Summary

	National Gen Pop (N=1,027)	Arizona Gen Pop (N=401)
Yes, registered to vote at my current address	84%	78%
No, not registered to vote at my current address	14%	19%
Not sure	2%	2%
Skipped	*	2%

TOPLINE & METHODOLOGY

2. Which of the following topics are the most important issues facing the country as a whole? You may select up to three.

	National Gen Pop	Arizona Gen Pop
Inflation or increasing costs	57%	59%
Immigration	39%	47%
Threats to democracy	25%	22%
Crime or corruption	25%	22%
Environment/Climate change	24%	19%

Telemundo or Univision	1%	1%
Other	6%	3%
None of these	11%	8%
Skipped	1%	2%

TOPLINE & METHODOLOGY

About the Study

This Scripps News/Ipsos poll was conducted by Ipsos from September 13 to September 15, 2024, using the probability-based KnowledgePanel®. This poll is based on a nationally representative probability sample of 1,027 adults age 18 or older. The sample includes 401 respondents that are currently residents of Arizona.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult U.S. population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the U.S. Households invited to join the panel are randomly selected from all available households in the U.S. Persons in the sampled households are invited to join and participate in the panel. Those selected who do not already have internet access are provided a tablet and internet connection at no cost to the panel member. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methodologies, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in English. The data for the national gen pop sample were weighted to adjust for gender by age, race/ethnicity, education, Census region, metropolitan status, household income, and party ID. Party ID benchmarks are from the 2024 NPORS annual survey. The demographic benchmarks came from the 2023 March Supplement of the Current Population Survey (CPS).

- Gender (Male, Female) by Age (18–29, 30–44, 45-59 and 60+)
- Race/Hispanic Ethnicity (White Non-Hispanic, Black Non-Hispanic, Other, Non-Hispanic, Hispanic, 2+ Races, Non-Hispanic)
- Education (Less than High School, High School, Some College, Bachelor or higher)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)
- Party ID (Democrat, Lean Democrat, Republican, Lean Republican, Independent/Something else)

TOPLINE & METHODOLOGY

The data for the Arizona gen pop sample were weighted to adjust for gender by age, race/ethnicity, education, metropolitan status, household income, and 2020 vote choice. The demographic benchmarks came from the 2022 American Community Survey (ACS).

- Gender (Male, Female) by Age (18–44, 45–59, 60+)
- Race/Hispanic Ethnicity (White Non-Hispanic, Hispanic, Non-White, Non-Hispanic,)
- Education (High School or less, Some College, Bachelor or higher)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$50,000, \$50,000-\$99,999, \$100,000+)
- 2020 vote choice (Joe Biden, Donald Trump, Someone else/Did not vote)

The margin of sampling error is plus or minus 3.6 percentage points at the 95% confidence level, for results based on the national gen pop sample. The margin of sampling error takes into account the design effect, which was 1.42. For the Arizona gen pop sample, the margin of sampling error is plus or minus 7.1 percentage points, and the design effect is 2.10.

The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.
