John,

By way of an update on the status of our case opening, I will be reviewing the draft opening this morning. One outstanding item we will need has been communicated to Thomas by our case agents. That is, FBI HQ EM and our CDC have opined The Barr Memo (Feb, 5, 2020) and extension FBI Policy 1096N applies. As such, we have requested your office obtain "written approval of the AG, through the DAG." As soon as we have this, I believe our EC will be ready to be approved at my level. FYSA, we will be seeking approval at the Director level. Please let me know if you have questions or want to chat this morning.

Thanks,

Tim
