

Dear Representative,

On behalf of State Freedom Caucus legislators across the country, we are urging the Congress to pass the SAVE Act (H.R. 22) immediately to ensure only U.S. citizens can vote in U.S. elections. Illegal immigration was a top electoral issue for millions of voters and their message was heard loud and clear with the election of Donald J. Trump as the 47th President of the United States. Now it's time for Congress to listen.

The states continue to face the prospect of a huge population of noncitizens illegally voting in our elections and potentially affecting the outcome. Our nation's immigration laws have been ignored and twisted by the Biden-Harris Administration, leading to an average of two million illegal border crossings every year since 2021. The Biden-Harris Department of Homeland Security failed to tell Congress or the American people where these illegal border crossers are, what they are doing, and what papers they are being given or asked to sign by their handlers. The Biden-Harris Administration heightened the risk of noncitizens voting by promoting Executive Order 14019, a 2021 fiat that requires every federal agency to use American tax dollars to register and get out to vote all people who come into contact with that agency.

We have a massive surge of illegal aliens in our population in addition to the more than 20 million noncitizens already living in our country, no oversight of where they are or what they are doing, and a government-wide mandate to encourage voter registration without proper safeguards. It is worth noting too, in these current circumstances, that there are significant penalties for noncitizens voting in federal elections, including deportation and loss of green card status. We must close the loopholes that put the integrity of our elections at risk. We need the SAVE Act to ensure that only U.S. citizens vote in U.S. elections.

The SAVE Act, authored by Rep. Chip Roy (TX-21), passed the House in July 2024 with bipartisan support. If H.R. 22 is signed into law, it would update the thirty-year old National Voter Registration Act by requiring states to obtain in-person, documentary proof of U.S. citizenship when registering individuals to vote in federal elections. The SAVE Act would also require states to remove noncitizens from their voter roles and hold election officials accountable to citizens by expanding penalties and private rights of action against those who would illegally enroll noncitizen voters.

As Freedom Caucus legislators in our own state capitols, we appreciate the leadership of our federal representatives on elevating the issue of noncitizens voting in our elections and we will continue to stand with them in their efforts.

Sincerely,

Representative Jordan Pace
