Donald Trump, President of the United States

Mr. Steve Witkoff

A Call to Make History

We, the survivors of captivity who were kidnapped on October 7th, celebrate and welcome the release of hostage Edan Alexander.

We believe the Israeli government now faces a genuine opportunity to return to the negotiating table. We urge all those involved in this process: Please do not walk away until a comprehensive deal is signed.

The majority of Israeli society wants the hostages home – even at the cost of halting military operations. They believe in the sanctity of human life and the paramount importance of bringing the fallen back for proper burial in Israel.

Having endured Hamas's tunnels ourselves, we call upon U.S. President Donald Trump, the Prime Minister, government ministers, and all those engaged in these negotiations: Do not let this historic momentum stop.

Free all our brothers and sisters from their nightmare, regardless of which citizenship they hold.

Only the immediate return of ALL hostages through a negotiated deal will create the foundation for hope, unity, and the renewal of our nation.
