501.204 Unlawful acts and practices.—

(1) Unfair methods of competition, unconscionable acts or practices, and unfair or deceptive acts or practices in the conduct of any trade or commerce are hereby declared unlawful.

(2) It is the intent of the Legislature that, in construing subsection (1), due consideration and great weight shall be given to the interpretations of the Federal Trade Commission and the federal courts relating to s. 5(a)(1) of the Federal Trade Commission Act, 15 U.S.C. s. 45(a)(1) as of July 1, 2017.

501.206 Investigative powers of enforcing authority.—

(1) If, by his or her own inquiry or as a result of complaints, the enforcing authority has reason to believe that a person has engaged in, or is engaging in, an act or practice that violates this part, he or she may administer oaths and affirmations, subpoena witnesses or matter, and collect evidence. Within 5 days, excluding weekends and legal holidays, after the service of a subpoena or at any time before the return date specified therein, whichever is longer, the party served may file in the circuit court in the county in which he or she resides or in which he or she transacts business and serve upon the enforcing authority a petition for an order modifying or setting aside the subpoena. The petitioner may raise any objection or privilege which would be available under this chapter or upon service of such subpoena in a civil action. The subpoena shall inform the party served of his or her rights under this subsection.

(2) If matter that the enforcing authority seeks to obtain by subpoena is located outside the state, the person subpoenaed may make it available to the enforcing authority or his or

(3) Upon failure of a person without lawful excuse to obey a subpoena and upon reasonable notice to all persons affected, the enforcing authority may apply to the circuit court for an order compelling compliance.

(4) The enforcing authority may request that an individual who refuses to comply with a subpoena on the ground that testimony or matter may incriminate him or her be ordered by the court to provide the testimony or matter. Except in a prosecution for perjury, an individual who complies with a court order to provide testimony or matter after asserting a privilege against self-incrimination to which he or she is entitled by law shall not have the testimony or matter so provided, or evidence derived therefrom, received against him or her in any criminal investigation or proceeding.

(5) Any person upon whom a subpoena is served pursuant to this section shall comply with the terms thereof unless otherwise provided by order of the court. Any person who fails to appear with the intent to avoid, evade, or prevent compliance in whole or in part with any investigation under this part or who removes from any place, conceals, withholds, mutilates, alters, or destroys, or by any other means falsifies any documentary material in the possession, custody, or control of any person subject to any such subpoena, or knowingly conceals any relevant information with the intent to avoid, evade, or prevent compliance shall be liable for a civil penalty of not more than \$5,000, reasonable attorney's fees, and costs.

Instructions

- H. This Subpoena is for the production of all responsive documents and information in your possession, custody or control regardless of whether such documents or information is possessed directly by you or your directors, officers, agents, employees, representatives, subsidiaries, managing agents, affiliates, investigators, or by your attorneys or their agents, employees, representatives, or investigators.
- I. Unless otherwise specified, original documents must be produced, and the originals of electronic files must be produced in accordance with paragraph P herein. If your “original” is a photocopy, then the photocopy would be and should be produced as the original. Said copy shall be legible and bound or stapled in the same manner as the original.
- J. The documents to be produced pursuant to each request should be segregated and specifically identified to indicate clearly the particular numbered request to which they are responsive.
- K. If any responsive document or information cannot be produced in full, you are to produce it to the extent possible, indicating which document, or portion of that document, is being withheld, and the reason that document is being withheld.
- L. If a document once existed and has subsequently been lost, destroyed, or is otherwise missing, please provide sufficient information to identify the document and state the details concerning its loss or destruction.
- M. Documents not otherwise responsive to this Subpoena shall be produced if such documents mention, discuss, refer to, or explain the documents that are called for by this Subpoena, or if such documents are attached to documents called for by this Subpoena and constitute routing slips, transmittal memoranda, or letters, comments, evaluations, or similar materials.
- N. If you do not possess, control, or have custody of any documents responsive to any numbered request set forth below, state this fact by so specifying in your response to said request.
- O. The use of the singular form of a word includes the plural and vice versa. In addition, the use of any tense of any verb includes all other tenses of the verb.
- P. ***Electronically Stored Information*** (“ESI”) is to be produced in the form in which it is ordinarily maintained. For example, native files would include email, spreadsheets and word processing files. Responsive documents that exist in electronic format shall be provided in native format (e.g., Microsoft Word files (.doc) or Outlook (.pst), emails, spreadsheets and word processing documents) with standard metadata intact, as outlined below. Prior to any production of responsive data from a structured database (e.g., Oracle, SAP, SQL, MySQL, QuickBooks, etc.), the producing party shall first provide the database dictionary and a list of all reports that can be generated from the structured database. The list of reports shall be

provided in native Excel (.xls) format. The database format will be requested for production after both parties agree on the format. Please include sufficient identification of the applicable software program to permit access to, and use of, each document. All attachments must be linked to their electronic documents. Native files should be provided in directories which are identifiable as responsive to a specific document request. All documents produced in native form should be produced on CDROM, DVDROM, External USB, or other similar drive media of a type that can be read by any standard computer. Unless otherwise agreed to, standard metadata in electronically stored information shall be preserved and produced, such as: Custodian, To, From, CC, BCC, Dates and Times (Sent, Received and Modified), Attachments, Links and Document types. A more complete list can be provided upon request. Questions regarding electronic production should be directed to the Assistant Attorney General whose name appears on this Subpoena. Arrangements will be made for the communication with the appropriate in-house technical expert.

Q. If you claim the attorney-client privilege, work-product privilege, or any other privilege, for any document, provide a detailed privilege log that contains at least the following information for each document that you have withheld:

- 1) The name of each author, writer, sender or initiator of such document or thing, if any;
- 2) The name of each recipient, addressee or party for whom such document or thing was intended, if any;
- 3) The date of such document, if any, or an estimate thereof so indicated if no date appears on the document;
- 4) The general subject-matter as described on such document; if no such description appears, then such other description sufficient to identify said document; and,
- 5) The claimed grounds for withholding the document, including, but not limited to, the nature of any claimed privilege and grounds in support thereof.

R. **TRADE SECRET PROTECTION.** In the event you seek to assert trade secret protection under Florida Statutes section 119.0715, or other applicable Florida Statutes, for each document for which trade secret protection is claimed:

- 1) Provide prior to, or simultaneous with, production of the document at issue, a sworn affidavit from a person with knowledge as to the basis for the trade secret claim, which complies with the following requirements:
 - a. The affidavit should specify the bates range of the claimed trade secret documents at issue, generally describe the documents at issue, and provide evidence of the application of the trade secret exemption.
 - b. The affidavit should attach a certification (similar in form to a traditional privilege log) that identifies the following information for each separate claimed trade secret document: (i) the bates range of the document; (ii) a description of the document sufficient to determine the application of the trade secret exemption; and (iii) the specific element(s) or provision(s) of section 688.002 that render the document at issue a trade secret exempted from public records.
- 2) Segregate and separately label the documents claimed as trade secrets as follows:

- a. Documents produced electronically should be produced on separate CD or electronic media clearly labeled "Trade Secret" on the physical media as well in the title of the electronic folder or file;
 - b. Documents produced in hard copy should be separated and each clearly labeled "Trade Secret."
 - 3) Any challenge to the application of the trade secret exemption shall be rebutted, if at all, only by you and not by the Office of the Attorney General, whose involvement shall be limited solely to providing notice to you of any challenge to your claim of trade secret protection. To the extent you seek to assert a trade secret exemption in connection with a public records request to the Office of the Attorney General, you shall be obligated to seek an appropriate protective order or otherwise establish the applicability of the trade secret claim and exemption. Failure to do so shall render the documents subject to production under any applicable public records requirements and not protected by a trade secret claim.
- S. All document destruction or retention policies and practices and electronic file deletion or disk management policies and practices (including, but not limited to, reformatting practices) that could have the effect of altering or deleting information requested by this Subpoena should be suspended.
- 1) Because electronically stored information is an important and irreplaceable source of evidence, you must take appropriate steps to preserve all potentially relevant documents within your control or [practical ability to access], which includes, but is not limited to, preserving information from computer systems, removable or portable electronic media (like CDs/DVDs, USB drives), e-mail, text/instant messaging, "tweets" and other electronic correspondence at work and other locations, word processing documents, spreadsheets, databases, calendars, telephone logs, cell phones, voicemail, blogs, social media, internet usage files, website data, personal computers/laptops, personal data assistants (PDAs), servers, and archives/backup files, as well as other tangible documentation that will be relevant to the discovery of admissible evidence in this matter, so as to avoid any potential claims for spoliation of evidence. This request pertains not only to documents that are directly responsive to this Subpoena, but to all other documents that relate to the subject of our investigation as well.
 - 2) Preservation of electronic data in its native format is essential, as a paper printout of text contained in a computer file does not completely reflect all information contained within an electronic file. Additionally, due to its format, electronic evidence can be easily altered, deleted, corrupted or otherwise modified. Accordingly, you are required to take every reasonable step to preserve this information until the resolution of this matter. This includes, but is not limited to, the following obligations:
 - a) Discontinue all data destruction and overwriting/recycling processes of relevant data;
 - b) Preserve passwords, decryption procedures (and accompanying software), access codes, ID codes, etc.; and
 - c) Maintain all pertinent information and tools needed to access, review and reconstruct all requested or potentially relevant electronic data.

- 3) Your obligations under the law are ongoing and should be considered in force and effect until the resolution of this matter. Accordingly, with regard to electronic data and documents that are created subsequent to the date of this Subpoena, relevant evidence is not to be destroyed or overwritten and you should take whatever steps are necessary to avoid destruction of potentially relevant evidence.
