Hi PIO team!

Hope you are almost ready for the holidays.

A&E have let us know the promos are running on air now - see link below

<https://play.aetv.com/shows/desert-law>

They have let us know there will be shareable assets for marketing in the New Year- we will share as soon as we have them!

I also attach some guidelines for deputuies who have been filmed - just in case they have open social media accounts and get contacted by local press or people. I'll drop them a note personally in the new year before transmission- just sharing here in case you have a way of sending out in a general way.

Thanks so much for all your help with this project this year - you've been the best press team I've ever worked with!

Wishing you a great holiday season and I hope you all get some well deserved rest.

Best wishes,

Tom - and all the Desert Law team!

Hi there, Sgt Valdez and Kevin!

Hope all is well in Pima. The team and I had a quick footage request we were hoping you could assist us with please.

Would it be possible for you to send us the ring doorbell camera clips associated with

the below 2x cases please? Some of the footage exists in the public domain.

#### REQUEST 1

Case #250923265- Attempted kidnapping and assault near West Los Reales Road and South Brackenbury Drive - 23rd and 24th of September 2025

- There are 3 ring doorbell camera videos showing the suspect. This footage is in the public domain, and it has been released to the media to ask the public for help with identifying the suspect. May we please request the 3 full videos?
- For reference, this is some of the footage:  
<https://www.kold.com/video/2025/09/24/watch-attempted-kidnapping-assault-suspect-caught-video/>

#### REQUEST 2

Case #251004020 - Vandalism

- May we please request any ring doorbell footage showing the suspects driving a pickup truck around the neighbourhood and firing paintballs?

Many thanks in advance. I really look forward to hearing from you!

Very Best,  
Kendra

Hi Angelica,

This is Leah from A&E Networks- hope all is well! Thank you again for connecting us with the evidence team to shoot Gary Triano's car a couple weeks ago.

I am reaching out to let you all know that we will be back in Tucson on 11/2 to shoot more broll for our episode. There was some bad weather last time we were in town, so we were unable to shoot exterior footage of the Pima County Sheriff's office. The crew will be stopping by sometime that Sunday, just to film some exterior footage of the sheriff's office from the parking lot.

Let me know if there is a good contact number for that day, should they run into any issues. Thanks so much in advance!

Hi Angelica,

This is Leah, an Associate Producer from A&E Networks- Thank you for taking the time to speak earlier!

As I mentioned, we will be in Tucson, AZ between the dates of 10-6-10/17 filming an episode on the Gary Triano case. While in town, we'd like to film the car from the crime scene, as well as some exterior shots of the police department.

I know you said the car is held down the street from the main office, is that where we should send our crew to film the car? If so, could you provide me with that address and information?

Thanks again for making this happen!

All videos below were requested by A&E for their documentary. The beginning of each video was reviewed and some concerns were discovered early on in the footage.

Deputy Cassels – 250404332

- Synopsis: Cassels attempts to apprehend suspect.
- Concern: Cassels struggles to control the suspect, encounter is prolonged. Uses profanities constantly during encounter.

Deputy Pool – 231223255

- Synopsis: Foot pursuit ends with the apprehension of suspect. Dep. Pool acts appropriately.
- Concern: Former Dep. Sheirer is heard in background using many profanities.

Deputy Stewart – 231217028

- Synopsis: Woman holding a knife in a car. Deputy Stewart acts appropriately.
- Concern: Deputy is heard in the background repeatedly saying “show me your fucking hands” over and over.

Deputy McCall Miller and Deputy Rico Buelna – 250516361

- Synopsis: Stop on a suspect who is walking on street. He is acting suspicious and reaching for pockets. Deputies check him for weapons. Suddenly suspect becomes confrontational.
- Concern: Deputy McCall Miller doesn’t activate body camera until well after fight is over. During the fight with suspect, it looks like McCall Miller is punching the suspect several times in the face, saying “give me your fucking hands.”

Thanks so much Sgt! Really looking forward to finally meeting. Let us know what time on the 12<sup>th</sup> could work after 11am?

Emma and I have been reaching out to supervisors to confirm ridealongs for starting to film from Monday next week -is this OK with you to continue doing?

We'll keep you in the loop with what gets confirmed - if we get stuck, we'll for sure ask for your help!

There is one area we've struggled with which would be great to get your input on. To show the breadth of work the deputies and detectives do, we have been looking at creating compelling narratives purely from body worn camera footage at incidents we didn't film at - we are calling them retrospective incidents.

We do have a good system in place requesting bodyworn footage relevant to incidents where our teams filmed - we can ID correct deputies and specific timecodes to make requesting the BWC really efficient through FOIA (a legal requirement of our Network) - and also know if it was appropriate to use in the programme

What has been more difficult is ID-ing good retrospective incidents we didnt attend as a film team. We've tried going to deputies but we haven't always been successful at getting the right type of incident. Lt Lindenau and I spoke about one on Friday which wasn't suitable for us.

Would supervisors (Sgts/Lts) know of suitable and interesting incidents we could create from BWV? Ideally featuring a deputy we have filmed with (I can get a list together tomorrow of those we have filmed!)

I'm sure it will be best to discuss in person -just wanted to pop on your radar!

Many thanks again!

Tom

**Subject:** RE: A+E documentary- meeting in HQ

Good morning,

I am finally back to work and excited to meet all of the A&E team that will be in town. Friday the 12<sup>th</sup> works for me.

Now that I am back, I will be taking back my responsibilities that Captain Koumal was so gracious to take on during my absences. Please let me know what I can do to help with scheduling and organizing ride longs during your time with us.

Please feel free to reach out with questions and concerns.

Thank you,  
Cham

Hi PIO team!

Hope you are well- and thank you as ever for all your continued support, its amazing and absolutely the best I've ever received from any law enforcement department!

I'm looking forward to meeting Sgt Valdez when we are back- and with that in mind, wondered if you had time for a quick meeting at your HQ once Emma and I land in AZ?

We arrive late Thursday 11th- so we could come by after 11am on Friday 12<sup>th</sup> - or if things are a bit compressed at the end of the week, the following Monday 15th at any time?

Let me know if either might work?

Best wishes

Tom

Lt. Lindenau, Sgt. Chamonix, & D. Gardner,

April Pejic, [REDACTED] a producer for A&E Cold Case Files TV show contacted me yesterday regarding 961101232 Gary Triano homicide.

A&E Cold Case Files wants to use the Triano homicide as one of their upcoming shows.

Pejic reports she estimates the production of the show would be sometime in September or later this fall.

Pejic or other persons involved in this production maybe reaching out to your respective units for records and access to PCSD personnel & facilities.

Thanks Dawn, that's really helpful to know. I appreciate you getting the answer so quickly

Are you around for a quick phone call today, around 9am? I'm in the UK, so cant do much later than that today- but next week could be more flexible if after 9 is better

Just wanted a 5-10min catch up to check our requests are as clear and concise as can be

Best wishes

Dear all

Please may we submit these two FOIA's to be placed ahead of other previous requests

from our company.

FOIA 003A is an alteration to FOIA 003 - requesting fewer incidents but also adding more specific timecodes to the remaining incident.

FOI 016 is a brand new request for specific amounts of bodyworn footage and additional Radio / 911 request.

Tom

Lt. Lindenau, Sgt. Chamonix, & D. Gardner,

April Pejic, [REDACTED] a producer for A&E Cold Case Files TV show contacted me yesterday regarding 961101232 Gary Triano homicide.

A&E Cold Case Files wants to use the Triano homicide as one of their upcoming shows.

Pejic reports she estimates the production of the show would be sometime in September or later this fall.

Pejic or other persons involved in this production maybe reaching out to your respective units for records and access to PCSD personnel & facilities.

Dear all

Please may we submit these two FOIA's to be placed ahead of other previous requests from our company.

FOIA 003A is an alteration to FOIA 003 - requesting fewer incidents but also adding more specific timecodes to the remaining incident.

FOI 016 is a brand new request for specific amounts of bodyworn footage and additional Radio / 911 request.

Lt. Lindenau, Sgt. Chamonix, & D. Gardner,

April Pejic, [REDACTED] a producer for A&E Cold Case Files TV show contacted me yesterday regarding 961101232 Gary Triano homicide.

A&E Cold Case Files wants to use the Triano homicide as one of their upcoming shows.

Pejic reports she estimates the production of the show would be sometime in September or later this fall.

Pejic or other persons involved in this production maybe reaching out to your respective units for records and access to PCS D personnel & facilities.

**Subject: FOIA Request 003A**

To whom it may concern,

This is an updated request of the original FOIA 3 submitted on 3<sup>rd</sup> July. We have removed 3 incidents from the original FOIA and made more specific requests for the original FOIA

Please may we request the following Deputy Bodycam, and radio comms and 911 calls of the incident detailed below:

**INCIDENT 1/1: THEFT FROM GAS STATION**

• **Case Reference Number: 25052287**

- Date: 22nd May 2025
- Start Time: Approx 19:30

**AUDIO REQUEST**

911 Calls related to this incident: **25052287**

PCSD Radio Comms/Dispatch related to this incident: **25052287**

**FOOTAGE REQUESTS:**

• **Bodycam: Deputy Isaiah Alvarez Badge # 9024**

May we request Deputy Alvarez bodycam from the point of activation for this incident, through to him discussing the case with Detective McLeod **Approx.: 19:30 - 20:05 (35 minutes total)**

We are only interested in Deputy Alvarez's interaction with the suspect and with Detective McLeod- if there are points where he is in the car looking at his laptop, we do not require these.

• **Bodycam: Detective Scott Mcleod # 5882**

We would request Detective McLeod's initial arrival on scene and his interaction with Deputy Alvarez

**Timecodes: 19:55 - 20:05 only (10 minutes in total)**

Sincerely,

Dear Pima County Sheriff's Office,

I'm an associate producer with A&E networks working on *Cold Case Files*, a series that highlights the hard work of law enforcement closing long unsolved cases. We are considering the following case for an upcoming episode.

Perpetrator(s): Pamela Phillips and Ron Young  
Victim(s): Gary Triano  
Date: 11/1/1996  
Location: La Paloma Country Club in Cataline Foothills

I would like to request the following records:

1. Investigative/incident reports, narratives, and supplements.
2. Recorded law enforcement interviews with suspects, witnesses, and persons of interest.
3. Crime scene, evidence, and search warrant photos.
4. 911 call.
5. Any other audio/visual records relevant to this case such as surveillance footage or bodyworn camera and dashcam.

Please let me know if you have any questions regarding this request.

Best,  
Noam

Hi,

We have used bodycam video which was released to the public.  
Below is an example of a video that was released to the public and the news.

Hi PIO team!

Hope all is well in Pima County

I was wondering if you had any previous incidents bodycam which you had released to the public already?

Speaking with our lawyer, these are very safe ground in terms of requesting them - and would also be quick to use as I assume it has been redacted already?

Let me know if anything springs to mind from the last few years?

Best wishes

Tom

Hi all!

We all got back to London safely and have been busy reviewing our FOIA requests.

We are still discussing with our legal counsel the ideas we discussed in person to make requests more efficient. I'll hopefully have an update on that next week.

But in the meantime, we have good news – based on your advice, we can cancel some of the case requests within FOIA 3,4 and 5. (I'll continue to look at the remaining FOIA's and resubmit with more detail in the request and potentially reprioritise the existing

ones)

We would like to retain some of the incidents included within FOIA 3 and 4 -highlighted in green below – but in total we can cancel requests for 7 of the incidents contained with FOIA 3,4 and 5, highlighted in red

For speed, I'll list them below- but I can also resubmit the FOIA forms if that's necessary – let me know!

### FOIA 3

We would like to keep this request active:

INCIDENT: THEFT FROM GAS STATION - Case Reference Number: 25052287

**Cancellations:** I appreciate some of the below may already be in process, so if individual bodycam redactions are almost complete, then please do continue - they will always be useful. But if they haven't been started, please do disregard them!

If not almost complete, we would like to cancel the following 2 incident requests for FOIA 3:

INCIDENT: INTOXICATED PERSON - Case Reference Number: 250607002

INCIDENT: TRAFFIC STOP - Case Reference Number: 250531017

-

### FOIA 4

We would like to keep this request active:

INCIDENT: CAR INCIDENT - Case Reference Number: 250624251

If not started, we would like to cancel the following 4 incident requests for FOIA 4:

INCIDENT: SHOPLIFTING - Case Reference Number: 250523013

INCIDENT: FIRE - Case Reference Number: 250601007

INCIDENT: TRAFFIC STOP Case Reference Number: unknown

Body Cam: Deputy Palicte Badge 9437

Bodycam: Detective Mcleod Badge 5882

INCIDENT: HIT AND RUN - Case Reference Number: 250525315

FOIA 5

We would like to cancel this whole FOIA request for the following single incident:

INCIDENT: Car collision - Case Reference Number: 250613317

Thanks!

Tom

Also - just to check on the FOIA process based on this email

Will each FOIA be approximately two weeks apart rather than two weeks from the point we submitted?

We were working on the basis it would take 1-2 weeks from point of submission

If they are being processed in order, we may need to change what we have submitted in order that our edits receive the footage in time.

Is there anything we could do to make the process simpler for the Records department?  
We could try to give more specific timecodes if that would help limit the amount of footage to redact?

Thanks Captain!

Best

Tom

Thanks Captain!

I will submit a more urgent one today which it would be great for the Records team to start before FOIA 3?

Will that be OK?

Thanks

Tom

Hi Capt Koumal!

Thanks for the chat yesterday about bodycam and how the Records department are getting on.

Do you know how close the Records department is to sending the bodyworn video from our FOIA 2 and FOIA 3?

(we have received audio/911 calls already- so thanks to the Records dept for that!)

You mentioned we could reprioritise the FOIA list- which we may do- but we don't want to stop any request which is very close to completion.

I've cc-ed my Executives in London, Jim and Simon, who are running the edits and may

have additional questions!

Thanks again for all your help,

Best,

Tom

Hope you are well -thanks again for all your help last week.

As we have our final two weeks for the main filming coming up which will fly by, I wondered if we could have a quick in person catch up about where we are at and work

out what might be possible to do while we are still here.

Amanda and I are free all day Monday, so if you had 30mins, we could swing by the HQ at your convenience?

Thank-you Capt. Koumal,

We are pleased to be of assistance and very relieved to hear everyone is OK.

As Tom says, it's of the utmost importance to us that we're operating in a way that is safe and conducive for all involved.

If it's at all helpful to debrief in anyway do let me know - we really appreciate the support you've given our team on the ground, and they were relieved to be back out filming last night. Hopefully Adam and Emma will be back out again soon once they've had some time to rest and recuperate.

Very best wishes and thanks again,

Dear Capt. Koumal and Lt. Lindenau,

Thank you both so much for your support following the traffic collision last night — it's been really appreciated by all of us.

I'm also looping in the Twenty Twenty senior team, James O'Reilly and Ruth Kelly, who are aware of everything and are on hand to support where required.

I caught up briefly with Lt Lindenau earlier, but just wanted to share a quick summary of where things stand today:

Sgt Jesse Comeau reached out to ask if Emma and Adam, our crew involved in the incident, could speak with a traffic detective and review footage we captured of the incident. After checking with our senior team and legal, we were able in this instance to share a short section of footage (30 seconds either side of the collision) and check in with Emma and Adam about an interview. I updated Lt Lindenau and worked with Sgt Comeau to agree timing.

Emma was able to speak with Det. Mossman over the phone today, with me present. We also passed over the agreed footage. Adam had to visit Urgent Care for a minor airbag

burn, so wasn't available — but we've arranged for him to speak with a detective on Monday.

Both Emma and Adam were really grateful for the way deputies handled everything on scene — and we're all thankful it wasn't more serious. They're doing well and looking forward to getting back to filming next week after a bit of rest.

Please don't hesitate to reach out if you'd like to talk anything through — my cell is below.

We always aim to work in a way that supports your team and keeps everyone safe. If there's anything more we can do, just let me know.

Warmest regards,

Tom

Hi Capt Koumal,

Hope you are well -thanks again for all your help last week.

As we have our final two weeks for the main filming coming up which will fly by, I wondered if we could have a quick in person catch up about where we are at and work out what might be possible to do while we are still here.

Amanda and I are free all day Monday, so if you had 30mins, we could swing by the HQ at your convenience?

Thanks!

Tom

Dear Capt. Koumal and Lt. Lindenau,

Thank you both so much for your support following the traffic collision last night — it's been really appreciated by all of us.

I'm also looping in the Twenty Twenty senior team, James O'Reilly and Ruth Kelly, who are aware of everything and are on hand to support where required.

I caught up briefly with Lt Lindenau earlier, but just wanted to share a quick summary of where things stand today:

Sgt Jesse Comeau reached out to ask if Emma and Adam, our crew involved in the incident, could speak with a traffic detective and review footage we captured of the incident. After checking with our senior team and legal, we were able in this instance to share a short section of footage (30 seconds either side of the collision) and check in with Emma and Adam about an interview. I updated Lt Lindenau and worked with Sgt Comeau to agree timing.

Emma was able to speak with Det. Mossman over the phone today, with me present. We also passed over the agreed footage. Adam had to visit Urgent Care for a minor airbag burn, so wasn't available — but we've arranged for him to speak with a detective on

Monday.

Both Emma and Adam were really grateful for the way deputies handled everything on scene — and we're all thankful it wasn't more serious. They're doing well and looking forward to getting back to filming next week after a bit of rest.

Please don't hesitate to reach out if you'd like to talk anything through — my cell is below.

We always aim to work in a way that supports your team and keeps everyone safe. If there's anything more we can do, just let me know.

Warmest regards,

Tom

Hi Paul,

No problem, I modified the original film permit to accommodate the additional week, if you could just sign and fill out the signature block on the final page and send it back, we'll be all set. A photo of the signed last page will suffice if you haven't immediate access to a scanner or e-signature capabilities.

Hi Joey,

I hope all is well with you.

I just wanted to touch base as we're looking to extend our filming in Pima by a week.

We're now finishing up on Mon 28<sup>th</sup> July rather than the 21<sup>st</sup> July.

Can I check if we need an extension on our filming permit please?

Best,

Hi Paul,

Here's the film permit for the ride-along with the PCSD through July 21. Should you need to extend out the date, just let us know and we can move that out longer. Keep in mind, the permit is for the ride-along portions of the filming, specific Pima County owned/jurisdictional locations such as County parks or other facilities may have specific restrictions or requirements so be sure to check in with your PCSD coordinator or our office if you have any questions, we're happy to help facilitate your work while your production team is here.

"Person on the street" type filming such as interviews in front of building with a handheld typically don't need permitting, but check in if you have any questions.

When your drone operator has provided their insurance coverage COI, please have that forwarded to us so we can have that on file. Please sign the last page of the document (electronic signature or a photo of the signed final page is sufficient) and return to me, that's all we'll need at this point.

Thanks, Paul, wishing good luck and success with your production!

Paul,

Great, the location should be ideal what you have in mind, the majority of our permitting for film projects is for the Tucson Mountain Park area for just this purpose. I have Nick Ratkevich copied and mobile number provided below, he's the contact at OT that you can coordinate with for the drone portion.

Nick Ratkevich  
Old Tucson Studios

I'm happy to assist you if you or your production team have any questions about jurisdictional boundaries and permitting needs. If you are working on public property, there are several jurisdictions that converge all over the area whether it be State of Arizona, US Forest Service, National Park Service, Pima County, or City of Tucson – each with differing needs so it can get

confusing. Privately owned land does not require permitting through our office, you'd need/want to obtain permission from the property owner. In many cases if you do find privately owned property you're interested in, I can look up the property ownership.

I also would like to introduce you to Monica Lopez from the Film Tucson office, who we work directly with to assist you with permitting and logistical needs you may have should you want to utilize other locations or need information on lodging, equipment rental, etc.

On County property, yes, that would require a separate right of entry permit from the department with oversight, such as Tucson Mountain Park / Gates Pass, but--- I did reach out to Old Tucson which is located within the park who will let you set up the drone filming in their parking area. Let me know if that works for you and I'll get you the contact at OTS.

Hi Paul,

Yes, I can assist, first thing we'll need you to do is fill out the film permit application at the link provided below and we can start the process. Can you provide me with your contact at the Pima County Sheriff's Dept. whom you're working with on this? We will need to coordinate with the PCSD any additional requirements the department may have to facilitate the permitting.

Along with the film permit application we'll also need a certificate of insurance (COI) for the general liability insurance along with a separate drone/aviation insurance COI with the coverage levels listed below along with a copy of your drone operators FAA license prior to approval of the permit.

As soon as we have the "green light" from the Sheriff's office and those required documents, we can issue the permit quite quickly. Thanks for your interest in filming here in Pima County, we appreciate you taking the time to submit the permit application, happy to help if you have any questions!

[Attractions - Commercial Filming/Still Photography Special Use Permit Application](#)

**Certificate of Insurance (COI):** Commercial General Liability insurance with limits not less than \$1,000,000.00 per occurrence and \$1,000,000.00 aggregate covering claims arising from bodily injury, including death or property damage alleged to have been caused or contributed to by the special event. **"Pima County and its districts" shall be named as additional insureds on the policy.** Pima County's Risk Manager may require increased coverage limits and other types of insurance based upon the nature of the special event.

You will also need to have a Certificate of Insurance of Drone Liability (sometimes listed as Aviation Liability) of 1 million dollars and have "Pima County and its districts" listed as additional insureds.

I hope all is well.

I wanted to say hello, and let you know a little more about our production.

The working title is Desert Heat, and we are filming an observational documentary, following the police patrol of Pima County's Sheriff Department for 9 weeks.

Twenty Twenty are a UK based Television company, owned by Warner Bros. and we're making the show for the A&E network.

The premise of the show will largely involve filming from the Police cars themselves, and on public highways as we follow the police officers on their patrol.

We're also planning a drone shoot on Mon 26 May to capture some of the beautiful Pima Desert and some shots of the police station.

We are a small crew with two teams of only a Producer / Director and a Producer on each shoot.

Can you let us know if we need any permits, or anything else to consider for the shoot ahead please?

Our filing dates are Thurs 22<sup>nd</sup> May – Mon 21<sup>st</sup> July.

I'm sorry to have been in touch earlier, pre-production was pulled forward and pre-production only started last week.

Thanks very much for your help.

Best wishes,  
Paul.

Hi Joey,

I hope all is well with you.

I just wanted to touch base as we're looking to extent our filming in Pima by a week.

We're now finishing up on Mon 28<sup>th</sup> July rather than the 21<sup>st</sup> July.

Can I check if we need an extension on our filming permit please?

Hi Paul,

Here's the film permit for the ride-along with the PCSD through July 21. Should you need to extend out the date, just let us know and we can move that out longer. Keep in mind, the permit is for the ride-along portions of the filming, specific Pima County owned/jurisdictional locations such as County parks or other facilities may have specific restrictions or requirements so be sure to check in with your PCSD coordinator or our office if you have any questions, we're happy to help facilitate your work while your production team is here.

"Person on the street" type filming such as interviews in front of building with a handheld typically don't need permitting, but check in if you have any questions.

When your drone operator has provided their insurance coverage COI, please have that forwarded to us so we can have that on file. Please sign the last page of the document (electronic signature or a photo of the signed final page is sufficient) and return to me, that's all we'll need at this point.

Thanks, Paul, wishing good luck and success with your production!

Paul,

Great, the location should be ideal what you have in mind, the majority of our permitting for

film projects is for the Tucson Mountain Park area for just this purpose. I have Nick Ratkevich copied and mobile number provided below, he's the contact at OT that you can coordinate with for the drone portion.

I'm happy to assist you if you or your production team have any questions about jurisdictional boundaries and permitting needs. If you are working on public property, there are several jurisdictions that converge all over the area whether it be State of Arizona, US Forest Service, National Park Service, Pima County, or City of Tucson – each with differing needs so it can get confusing. Privately owned land does not require permitting through our office, you'd need/want to obtain permission from the property owner. In many cases if you do find privately owned property you're interested in, I can look up the property ownership.

I also would like to introduce you to Monica Lopez from the Film Tucson office, who we work directly with to assist you with permitting and logistical needs you may have should you want to utilize other locations or need information on lodging, equipment rental, etc.

On County property, yes, that would require a separate right of entry permit from the department with oversight, such as Tucson Mountain Park / Gates Pass, but--- I did reach out to Old Tucson which is located within the park who will let you set up the drone filming in their parking area. Let me know if that works for you and I'll get you the contact at OTS.

Hi Paul,

Yes, I can assist, first thing we'll need you to do is fill out the film permit application at the link provided below and we can start the process. Can you provide me with your contact at the Pima County Sheriff's Dept. whom you're working with on this? We will need to coordinate with the PCSD any additional requirements the department may have to facilitate the permitting.

Along with the film permit application we'll also need a certificate of insurance (COI) for the general liability insurance along with a separate drone/aviation insurance COI with the coverage levels listed below along with a copy of your drone operators FAA license prior to approval of the permit.

As soon as we have the "green light" from the Sheriff's office and those required documents, we can issue the permit quite quickly. Thanks for your interest in filming here in Pima County, we appreciate you taking the time to submit the permit application, happy to help if you have any questions!

**Certificate of Insurance (COI):** Commercial General Liability insurance with limits not less than \$1,000,000.00 per occurrence and \$1,000,000.00 aggregate covering claims arising from bodily injury, including death or property damage alleged to have been caused or contributed to by the special event. **"Pima County and its districts" shall be named as additional insureds on the policy.** Pima County's Risk Manager may require increased coverage limits and other types of insurance based upon the nature of the special event.

You will also need to have a Certificate of Insurance of Drone Liability (sometimes listed as Aviation Liability) of 1 million dollars and have "Pima County and its districts" listed as additional insureds.

Hi Joey,

I hope all is well.

I wanted to say hello, and let you know a little more about our production.

The working title is Desert Heat, and we are filming an observational documentary, following the police patrol of Pima County's Sheriff Department for 9 weeks.

Twenty Twenty are a UK based Television company, owned by Warner Bros. and we're making the show for the A&E network.

The premise of the show will largely involve filming from the Police cars themselves, and on public highways as we follow the police officers on their patrol.

We're also planning a drone shoot on Mon 26<sup>th</sup> May to capture some of the beautiful Pima Desert and some shots of the police station.

We are a small crew with two teams of only a Producer / Director and a Producer on each shoot.

Can you let us know if we need any permits, or anything else to consider for the shoot ahead please?

Our filming dates are Thurs 22<sup>nd</sup> May – Mon 21<sup>st</sup> July.

I'm sorry to have been in touch earlier, pre-production was pulled forward and pre-production only started last week.

Thanks very much for your help.

Best wishes,  
Paul.

Hello all,

Firstly, a huge thank you to everyone at PCSD for all the support during our filming with your deputies. We're especially grateful to the PIO department—your help has been invaluable and truly appreciated!

I just wanted to touch base regarding our original plan to wrap main filming on the 19th/20th of July. We've captured some excellent material so far, but we feel that adding an additional week would allow us to cover some of the more specialized departments and film a few more patrol shifts with a broader range of deputies.

Would it be possible for us to continue filming through to the 26th/27th of July? Please let me know if there are any concerns with that.

We're also hoping to return for a bit more filming in the near future, after we've had a chance to review everything we've captured over the past few weeks. I believe Julia Hunt and Sean/Erick have been in touch about this as well—we'll have some proposed dates for that very soon.

Thanks again, and we really appreciate all the support from the entire PCSD team.

Best wishes,

Tom

Dear Capt Koumal, Lt Lindenau and Kevin

Thank you for your help last week's filming. Here is the schedule for the next 3 weeks of our remaining 5.

I've **highlighted in green days I can arrange directly** and **in red deputies we haven't filmed with this year**. I believe Sgt Valdez was getting each deputies Sgt approval before confirming their ridealong. I'm happy to speak with Sgt/supervisors directly if you want to link me and I'll keep you all in the loop with each weeks confirmed filming – very happy to be led by what suits you best.

Also - introducing Amanda Riley, who'll be assisting me with scheduling and bodycam/AU footage requests.

I'm available all day for a call if you'd like to speak directly about this weeks filming - my cell is [REDACTED]

Thank you!

Dear Capt Koumal, Lt Lindenau and Kevin

Thank you for your help last week's filming. Here is the schedule for the next 3 weeks of our remaining 5.

I've highlighted in green days I can arrange directly and in red deputies we haven't filmed with this year. I believe Sgt Valdez was getting each deputies Sgt approval before confirming their ridealong. I'm happy to speak with Sgt/supervisors directly if you want to link me and I'll keep you all in the loop with each weeks confirmed filming – very happy to be led by what suits you best.

Also - introducing Amanda Riley, who'll be assisting me with scheduling and bodycam/AU footage requests.

I'm available all day for a call if you'd like to speak directly about this weeks filming - my cell is [REDACTED]

Thank you!

I spoke with the producer again today. They no longer want to film tomorrow. It seemed like they were less interested (possibly due to logistics). She was more potentially interested in footage we may already have of rescues. I told her to reach out if things changed and we can try to help facilitate what they need, but we are standing down for now.

SAR is tentatively scheduled for them to come out and film a hoist training session next Tues 7/8 out at the old missile silo off Old Sonoita Hwy. We also discussed them coming a joint SARA training at the PRTC tower so they can see and speak with SARA as well as us. That one is still being worked out.

**Importance:** High

TRS Sergeants,

The A&E crew will be with the department through mid-July. I know it is tough to have them ride with us and have something worth recording, but we can look at other ways to assist.

Training:

We can invite them to trainings. Make sure everything is squared away and manners are minded but reach out, talk with the contacts, and invite to training if they feel appropriate. We can set up specific training, such as hoist training on helicopter.

Call outs:

As stated below, if a call-out is started, we can reach out and advise. They can show up if they deem appropriate.

Ride-along:

This is most difficult since nothing may happen during the shift. Plus, I would rather focus on their primary duties compared to PR opportunities.

This is focus:

Training: Appropriate for K9, swat, Bomb, and S&R.

Call-Outs: Appropriate for SWAT, Bomb, S&R.

Ride-along: Appropriate for Air Unit

Please reach out to contacts (below) and assist with scheduling.

Thanks, all. Appreciate the time and effort.

Please keep me informed when and if you are scheduled or if they respond to call-out (they were at barricade last week).

Good morning.

As you know, the A&E crew is with our department through mid-July. Our team has been very supportive in promoting the great work of our personnel and department efforts. The A&E team is looking to capture as much footage as possible. I know, many of the specialized units respond on short notice and it is challenging to pre-schedule. The A&E team is flexible and appropriately sensitive to adversely impacting our operations and/or safety. Please consider reaching out to them if any incidents occur – even short notice. They are also open to review of any prior footage that you may recognize as appropriate to share.

Specifically, A&E is looking to connect with SWAT, AIR, K9, FIST, and potentially the training center as the new class will be starting in mid-July. The traffic section has been incredible in their support.

Contacts for A&E Team are Amanda Riley ([REDACTED]) and Tom Olney ([REDACTED])

Thank you.

Hi Captain Koumal,

Thank you for your ongoing assistance communicating with the teams.

I was wondering if you have a number for Sergeant Barkman at San Xavier patrol as I was hoping to check in with them if we could ridealong on a shift with one of their deputies tomorrow on the 1200 shift.

I understand Sergeant Sharp has mentioned to them that I was hoping to get in touch.

Many thanks

Good morning Amanda.

The department has experienced some rotational re-assignments since last year. Below are the current supervisors – we can coordinate a meeting next week.

Aerial Unit- Our colleagues met with some of the team last year, including Zachery Pierce and Tony Stevens. I was wondering whether it would be possible to speak with the Head of the Aerial Unit?

Sgt. Ryan Inglett

Work Cell Phone: [REDACTED]

Search and Rescue- I understand this is perhaps multiple units who come together but is there one unit but who may be best to speak to regarding filming these operations?

Sgt. Tyler Legg

Dear Capt Koumal, Lt Lindenau and Kevin,

It's brilliant to e-meet you and to be joining the Twenty Twenty team on the ground.

I wanted to follow up regarding some of the other units that either our colleagues have previously been in touch with or we have spoken about, and wondered if you may be happy for me to speak with the senior officer of the following units and if so who may be the best person to contact? Ideally I would be keen to introduce myself this week.

Thank you for your help last week's filming. Here is the schedule for the next 3 weeks of our remaining 5.

[REDACTED]

I've highlighted in green days I can arrange directly and in red deputies we haven't filmed with this year. I believe Sgt Valdez was getting each deputies Sgt approval before confirming their ridealong. I'm happy to speak with Sgt/supervisors directly if you want to link me and I'll keep you all in the loop with each weeks confirmed filming – very happy to be led by what suits you best.

Also - introducing Amanda Riley, who'll be assisting me with scheduling and bodycam/AU footage requests.

I'm available all day for a call if you'd like to speak directly about this weeks filming - my cell is [REDACTED]

Thank you!

I spoke with the producer again today. They no longer want to film tomorrow. It seemed like they were less interested (possibly due to logistics). She was more potentially interested in footage we may already have of rescues. I told her to reach out if things changed and we can try to help facilitate what they need, but we are standing down for now.

SAR is tentatively scheduled for them to come out and film a hoist training session next Tues 7/8 out at the old missile silo off Old Sonoita Hwy. We also discussed them coming a joint SARA training at the PRTC tower so they can see and speak with SARA as well as us. That one is still being worked out.

TRS Sergeants,

The A&E crew will be with the department through mid-July. I know it is tough to have them ride

with us and have something worth recording, but we can look at other ways to assist.

Training:

We can invite them to trainings. Make sure everything is squared away and manners are minded but reach out, talk with the contacts, and invite to training if they feel appropriate. We can set up specific training, such as hoist training on helicopter.

Call outs:

As stated below, if a call-out is started, we can reach out and advise. They can show up if they deem appropriate.

Ride-along:

This is most difficult since nothing may happen during the shift. Plus, I would rather focus on their primary duties compared to PR opportunities.

This is focus:

Training: Appropriate for K9, swat, Bomb, and S&R.

Call-Outs: Appropriate for SWAT, Bomb, S&R.

Ride-along: Appropriate for Air Unit

Please reach out to contacts (below) and assist with scheduling.

Thanks, all. Appreciate the time and effort.

Please keep me informed when and if you are scheduled or if they respond to call-out (they were at barricade last week).

Good morning.

As you know, the A&E crew is with our department through mid-July. Our team has been very supportive in promoting the great work of our personnel and department efforts. The A&E team is looking to capture as much footage as possible. I know, many of the specialized units respond on short notice and it is challenging to pre-schedule. The A&E team is flexible and appropriately sensitive to adversely impacting our operations and/or safety. Please consider reaching out to them if any incidents occur – even short notice. They are also open to review of any prior footage that you may recognize as appropriate to share.

Specifically, A&E is looking to connect with SWAT, AIR, K9, FIST, and potentially the training center as the new class will be starting in mid-July. The traffic section has been incredible in their support.

Contacts for A&E Team are Amanda Riley ([REDACTED]) and Tom Olney ([REDACTED])

Thank you.

Hi Captain Koumal,

Thank you for your ongoing assistance communicating with the teams.

I was wondering if you have a number for Sergeant Barkman at San Xavier patrol as I was hoping to check in with them if we could ride along on a shift with one of their deputies tomorrow on the 1200 shift.

I understand Sergeant Sharp has mentioned to them that I was hoping to get in touch.

Many thanks

Amanda

This email originated outside Warner Bros.

Good morning Amanda.

The department has experienced some rotational re-assignments since last year. Below are the current supervisors – we can coordinate a meeting next week.

Aerial Unit- Our colleagues met with some of the team last year, including Zachery Pierce and Tony Stevens. I was wondering whether it would be possible to speak with the Head of the Aerial Unit?

Sgt. Ryan Inglett

Work Cell Phone: [REDACTED]

Search and Rescue- I understand this is perhaps multiple units who come together but is there one unit but who may be best to speak to regarding filming these operations?

Sgt. Tyler Legg

Dear Capt Koumal, Lt Lindenau and Kevin,

It's brilliant to e-meet you and to be joining the Twenty Twenty team on the ground.

I wanted to follow up regarding some of the other units that either our colleagues have previously been in touch with or we have spoken about, and wondered if you may be happy for me to speak with the senior officer of the following units and if so who may be the best person to contact? Ideally I would be keen to introduce myself this week.

TRS Sergeants,

The A&E crew will be with the department through mid-July. I know it is tough to have them ride with us and have something worth recording, but we can look at other ways to assist.

Training:

We can invite them to trainings. Make sure everything is squared away and manners are minded but reach out, talk with the contacts, and invite to training if they feel appropriate. We can set up specific training, such as hoist training on helicopter.

Call outs:

As stated below, if a call-out is started, we can reach out and advise. They can show up if they deem appropriate.

Ride-along:

This is most difficult since nothing may happen during the shift. Plus, I would rather focus on their primary duties compared to PR opportunities.

This is focus:

Training: Appropriate for K9, swat, Bomb, and S&R.

Call-Outs: Appropriate for SWAT, Bomb, S&R.

Ride-along: Appropriate for Air Unit

Please reach out to contacts (below) and assist with scheduling.

Thanks, all. Appreciate the time and effort.

Please keep me informed when and if you are scheduled or if they respond to call-out (they were at barricade last week).

Good morning.

As you know, the A&E crew is with our department through mid-July. Our team has been very supportive in promoting the great work of our personnel and department efforts. The A&E team is looking to capture as much footage as possible. I know, many of the specialized units respond on

short notice and it is challenging to pre-schedule. The A&E team is flexible and appropriately sensitive to adversely impacting our operations and/or safety. Please consider reaching out to them if any incidents occur – even short notice. They are also open to review of any prior footage that you may recognize as appropriate to share.

Specifically, A&E is looking to connect with SWAT, AIR, K9, FIST, and potentially the training center as the new class will be starting in mid-July. The traffic section has been incredible in their support.

Contacts for A&E Team are Amanda Riley [REDACTED] and Tom Olney [REDACTED].

Thank you.

Hi Captain Koumal,

Thank you for your ongoing assistance communicating with the teams.

I was wondering if you have a number for Sergeant Barkman at San Xavier patrol as I was hoping to check in with them if we could ridealong on a shift with one of their deputies tomorrow on the 1200 shift.

I understand Sergeant Sharp has mentioned to them that I was hoping to get in touch.

Many thanks

Dear Capt Koumal, Lt Lindenau and Kevin,

It's brilliant to e-meet you and to be joining the Twenty Twenty team on the ground.

I wanted to follow up regarding some of the other units that either our colleagues have previously been in touch with or we have spoken about, and wondered if you may be happy for me to speak with the senior officer of the following units and if so who may be the best person to contact? Ideally I would be keen to introduce myself this week.

TRS Sergeants,

The A&E crew will be with the department through mid-July. I know it is tough to have them ride with us and have something worth recording, but we can look at other ways to assist.

Training:

We can invite them to trainings. Make sure everything is squared away and manners are minded but reach out, talk with the contacts, and invite to training if they feel appropriate. We can set up specific training, such as hoist training on helicopter.

Call outs:

As stated below, if a call-out is started, we can reach out and advise. They can show up if they deem appropriate.

Ride-along:

This is most difficult since nothing may happen during the shift. Plus, I would rather focus on their primary duties compared to PR opportunities.

This is focus:

Training: Appropriate for K9, swat, Bomb, and S&R.

Call-Outs: Appropriate for SWAT, Bomb, S&R.

Ride-along: Appropriate for Air Unit

Please reach out to contacts (below) and assist with scheduling.

Thanks, all. Appreciate the time and effort.

Please keep me informed when and if you are scheduled or if they respond to call-out (they were at barricade last week).

**Subject:** FW: A&E filming schedule - next 3 weeks of 5

Good morning.

As you know, the A&E crew is with our department through mid-July. Our team has been very supportive in promoting the great work of our personnel and department efforts. The A&E team is looking to capture as much footage as possible. I know, many of the specialized units respond on short notice and it is challenging to pre-schedule. The A&E team is flexible and appropriately sensitive to adversely impacting our operations and/or safety. Please consider reaching out to them if any incidents occur – even short notice. They are also open to review of any prior footage that you may recognize as appropriate to share.

Specifically, A&E is looking to connect with SWAT, AIR, K9, FIST, and potentially the training center as the new class will be starting in mid-July. The traffic section has been incredible in their support.

Contacts for A&E Team are Amanda Riley [REDACTED] and Tom Olney [REDACTED]

Thank you.

Hi Captain Koumal,

Thank you for your ongoing assistance communicating with the teams.  
I was wondering if you have a number for Sergeant Barkman at San Xavier patrol as I was hoping to check in with them if we could ride along on a shift with one of their deputies tomorrow on the 1200 shift.  
I understand Sergeant Sharp has mentioned to them that I was hoping to get in touch.

Many thanks  
Amanda

Good morning Amanda.

The department has experienced some rotational re-assignments since last year. Below are the current supervisors – we can coordinate a meeting next week.

Aerial Unit- Our colleagues met with some of the team last year, including Zachery Pierce and Tony Stevens. I was wondering whether it would be possible to speak with the Head of the Aerial Unit?

Sgt. Ryan Inglett

Work Cell Phone: [REDACTED]

Search and Rescue- I understand this is perhaps multiple units who come together but is there one unit but who may be best to speak to regarding filming these operations?

Sgt. Tyler Legg

Sgt. Cody Gress

Work Cell Phone: [REDACTED]

Fugitive Unit-Our team spoke with Sergeant Kyle Youmans last year, is he still the Sergeant on the team and would you be happy us recontacting him?

Sgt. Chance Kennedy

Work Cell Phone: [REDACTED]

Homocide & Cold Case- We were previously in contact with Daniel Sharp Jr who at the time was the Cold Case lead. Would you be happy for us to recontact him? Is there anyone additional you would advise us to reach out to?

Sgt. David Stivers

Dear Capt Koumal, Lt Lindenau and Kevin,

It's brilliant to e-meet you and to be joining the Twenty Twenty team on the ground.

I wanted to follow up regarding some of the other units that either our colleagues have previously been in touch with or we have spoken about, and wondered if you may be happy for me to speak with the senior officer of the following units and if so who may be the best person to contact? Ideally I would be keen to introduce myself this week.

Dear Capt Koumal, Lt Lindenau and Kevin

Thank you for your help last week's filming. Here is the schedule for the next 3 weeks of our remaining 5.

I've highlighted in green days I can arrange directly and in red deputies we haven't filmed with this year. I believe Sgt Valdez was getting each deputies Sgt approval before confirming their ridealong. I'm happy to speak with Sgt/supervisors directly if you want to link me and I'll keep you all in the loop with each weeks confirmed filming – very happy to be led by what suits you best.

Also - introducing Amanda Riley, who'll be assisting me with scheduling and bodycam/AU footage requests.

I'm available all day for a call if you'd like to speak directly about this weeks filming - my cell is [REDACTED]

Thank you!

Dear Capt Koumal, Lt Lindenau and Kevin,

Thank you so much for all your help over the last few weeks -it's been amazing working with you!

Now we have some great incidents from our ride-alongs, we are starting the process of editing.

We had the thought it would be good to get drone shots of deputy vehicles in a variety of locations in and around Tucson in the day and nighttime.

We never want to take deputies from their regular duties, so in previous programmes we have organised with a PIO who is free to help us and can drive a deputy vehicle for a block of time - either in one go or split over a couple of days. The best case scenario is for about 3 hours in the daytime and 3 hours at night.

If this is a stretch for your team, let me know – we never want to take people away from duties which would impact law enforcement in any way.

Let me know if that might be possible? We have a drone operator who has already filmed on the ridealongs, but we need to pencil him for specific days. He is actually around tomorrow from 3pm-7pm – but I appreciate that's short notice! If better, anytime convenient for your teams between 7<sup>th</sup>-20<sup>th</sup> July?

I could send more details on where it would happen - feel free to call to discuss as well!

Thanks!

Tom

Yes, we can coordinate a deputy with our patrol vehicle. Kevin – can you assist Tom – thinking Morgan or Adam can take our new Tahoe.

Dear Capt Koumal, Lt Lindenau and Kevin,

Thank you so much for all your help over the last few weeks -it's been amazing working with you!

Now we have some great incidents from our ride-alongs, we are starting the process of editing.

We had the thought it would be good to get drone shots of deputy vehicles in a variety of locations in and around Tucson in the day and nighttime.

We never want to take deputies from their regular duties, so in previous programmes we have organised with a PIO who is free to help us and can drive a deputy vehicle for a block of time - either in one go or split over a couple of days. The best case scenario is for about 3 hours in the daytime and 3 hours at night.

If this is a stretch for your team, let me know – we never want to take people away from duties which would impact law enforcement in any way.

Let me know if that might be possible? We have a drone operator who has already filmed on the ridealongs, but we need to pencil him for specific days. He is actually around tomorrow from 3pm-7pm – but I appreciate that's short notice! If better, anytime

convenient for your teams between 7<sup>th</sup>-20<sup>th</sup> July?

I could send more details on where it would happen - feel free to call to discuss as well!

Thanks!

Tom
