Anthropic IPO Day of Action Toolkit

Thursday, November 19, 2026

Questions? Contact volunteer@quitgpt.org

Our demand

BAN SELF IMPROVING AI.

Anthropic is leading a reckless race to build self improving AI that threatens our livelihoods, our democracy, and our lives. The companies building frontier AI have shown us they are out of control. AI development must freeze immediately, starting with a ban on self-improving AI.

Why today

Today, Thursday, November 19, Anthropic goes public on the Nasdaq. It will be one of the biggest IPOs in history: up to $64.4 billion in shares, at a valuation around $1.4 trillion (The Next Web).

Every newspaper and talk show in the world will cover this IPO. If we take action publicly, in the streets, on social media and in Anthropic's own comments, then this will be swept up in the press story. It could be enough to change the headlines from "Anthropic delivers best IPO in history" to "Anthropic IPOs amidst safety outcry."

This will be one of our best chances to raise the alarm on Anthropic's out of control AI development.

Three ways to help today

1. **Come to protests in SF and NYC.**
    - **San Francisco:** Thursday, Nov 19, 11am–12pm PT, outside Anthropic's office at 500 Howard St. RSVP at banrsi.ai.
    - **New York:** Thursday, Nov 19, 9:00am. At Nasdaq, 4 Times Square. RSVP on Action Network.
2. **Post our materials.** You can post the carousels we've prepared for you, or repost the carousels on @quitgpt and send them to your friends.

3. **Comment-storm Anthropic.** We can comment on Anthropic's own posts with **"Ban self-improving AI!"** and easily become the dominant part of the conversation. When journalists see Anthropic's pages, they will see our backlash.

Post our materials

DOWNLOAD THE GRAPHICS

Caption version A: (good for X, Threads, TikTok)

Anthropic says its own product could destroy all jobs or even end humanity and is asking Wall Street for $64 billion to build it faster.

This needs to stop.

Don't fund the race to replace us. FREEZE AI NOW. Ban self improving AI.

NYC protest @ Nasdaq 9am
SF protest @ Anthropic HQ 11am
#FreezeAI #QuitGPT #StopAnthropic

Caption version B: (good for Instagram, LinkedIn, Facebook)

Today, Anthropic goes public in one of the biggest IPOs in history.

They are recklessly disempowering us in our jobs, our democracy, and our future. They are even passing off the job of building the next generation of AI to their AIs.

Don't fund the race to replace us. FREEZE AI NOW.

You can help by
→ Protest in San Francisco or New York (links in @quitgpt bio)

→ Comment on Anthropic's posts: "Ban self-improving AI!"

→ Share this post

Comment-storm Anthropic's official pages

Post a comment on Anthropic's official social media pages. We like the call to action of **"Ban self-improving AI!"** but you can mix in your own wording (copy+pasted messages get flagged as spam).

- Ban self-improving AI!
- Your CEO said there's a 25% chance this goes really, really badly. Why are you selling it?
- Don't fund the race to replace us. #FreezeAI
- Stop using AI to build AI. Freeze it now.
- If your product might end humanity, don't sell shares in it.
- Ban self-improving AI! Nobody voted for this.

Please: stick to Anthropic's official pages, not employees' personal accounts and no slurs or abuse. That is not effective.

If you're going to a protest:

We've included some ideas for signage. We recommend big block letters, three to six words, which are easily readable from across the street.

- DON'T FUND THE RACE TO REPLACE US
- FREEZE AI NOW
- BAN SELF-IMPROVING AI
- STOP THE AI RACE. SAVE THE HUMAN RACE.

- AI BUILDING AI = NO ONE AT THE WHEEL
- BOTS BUILDING BOTS = GAME OVER
- NO AI BUILDS ITS OWN SUCCESSOR

- $64 BILLION TO REPLACE YOU
- A TRILLION-DOLLAR BET WITH OUR LIVES
- WALL STREET: DON'T BANKROLL OUR REPLACEMENT

- PAGE 32: "EXISTENTIAL RISKS TO HUMANITY"
- 25% CHANCE OF DISASTER? WE DON'T CONSENT
- "SCARIEST THING TO DO" — SO DON'T DO IT
